Policy

Community Relations

The Governing Board desires to promote positive relationships between the ROP and public and community organizations. Photographs may be used for the non-profit promotion or recognition of individuals in newspapers, class schedules, trade journals, established magazines, program pamphlets, or advertising. Any other use requires the permission of the Superintendent.

When photographs are taken of students, during classroom operation and training, written permission by the adult student, or parent or guardian of the high school student, must be obtained before the photographs may be used.
