Policy

Community Relations

The Governing Board recognizes that agencies at all levels of government share its concern and responsibility for the welfare, health and safety of our students. The Board and ROP staff shall take every opportunity to work cooperatively with these agencies for the benefit of our students.

Cooperation with other community organizations for the benefit of our students is also beneficial in order to make ROP classes and services available to their clients. Appropriate activities include oral presentations, tour of classes, supplying brochures, and, other written information about ROP; referral of clients and, when approved by the Superintendent and /or Governing Board, joint participation in projects.

The Superintendent or designee shall initiate and maintain good working relationships with representatives of these agencies and organizations in order to help our students make use of the resources available.
