

North Orange County Regional Occupational Program
ORGANIZATION GOALS
ROP BP 0110

Policy

1. Provide career-technical education to prepare, retrain, or upgrade the knowledge and job skills needed to succeed in the global economy.
2. Maximize student learning through optimal use of available resources including qualified teachers with current career-technical knowledge, efficient operations, industry-standard technology, and accessible and appropriate instructional settings and facilities.
3. Collaborate and articulate with participating districts and postsecondary programs to provide a seamless pathway of educational opportunities for students.
4. Provide services and programs that support students' educational and career goals that recognize and address varied learning styles, diverse languages and cultural backgrounds, while assuring equal access to all students.
5. Provide instruction that addresses state and industry standards through integration of academic, employability and career-technical skills.
6. Use a variety of instructional strategies that engage students in meaningful learning activities, simulate the workplace, and foster the attitudes and skills needed for success, including a commitment to lifelong learning.
7. Provide staff development and professional growth opportunities for staff to acquire and strengthen their skills.
8. Consult with community and business partners to ensure courses are relevant and address current and emerging trends.
