

**North Orange County Regional Occupational Program
RELATIONS WITH BUSINESS/INDUSTRY
ROP BP 1700**

Policy

Community Relations

The Governing Board encourages representatives of business/industry to participate with the ROP in preparing our students for challenges with will meet in the future. Working together as partners, business and the ROP should seek to educate citizens who can contribute to the productive workforce on which our economy depends.

The Superintendent or designee shall invite local employers to serve on advisory committees to make suggestions on the design of career/technical programs, and to provide classroom assistance, individual tutoring, incentive and recognition programs work experience opportunities, apprenticeship programs and employment opportunities

The Board recognizes that in an increasingly technological job market, students need access to equipment that meets current business standards. The Board, therefore, encourages private business to contribute funds and equipment to further the ROP's educational programs.
